## **RESEARCH FUNDING**

### **Current Projects**

Johnson Endowment 8/1/25-12/30/2025  
No Grant # (Allen)  
**FQHC Diabetes Learning Collaborative**

In partnership with the Center for Accelerating Care Transformation (ACT Center), the Washington Association for Community Health will convene the Pathways to Better Diabetes Care Collaborative for interdisciplinary FQHC teams to implement strategies to improve diabetes outcomes. Over 15 months, participants will share best practices, test new approaches to care, and learn from peers and subject matter experts. The Collaborative will emphasize clinical quality improvement (QI) for diabetes care and implementation and testing of evidence-based strategies.

Role: QI Coach and Collaborative Scientist (25% FTE)

Kaiser Permanente Washington  
No Grant # (Westbrook)

8/1/25-12/30/2025

**Learning Health System Program: Annual Wellness Visit and Personal Assessment of Total Health**

As a part of a comprehensive geriatric care strategy at KPWA, engage with Burien (and Capitol Hill Family Practice to pilot and refine training and workflow development to support optimal conduct of the KPWA Medicare Annual Wellness Visit. This includes incorporating self-report data from the Personal Assessment of Total Health (PATH) Questionnaire into the AWW and encouraging completion of the PATH if not completed prior to the AWW

Role: Workflow design and implementation support (20% FTE)

Agency for Healthcare Research and Quality  
P30 HS029737 (Lozano, Ralston)

1/1/24-12/31/2028

\$3,000,000 (total direct)

**Washington Learning Health System Embedded Scientist Training and Research Center (WA LHS E-STAR Center)**

The goal of the Washington Learning Healthcare System (LHS) E-STAR Center is to train a diverse set of independent scientists with a solid foundation in LHS research who can change the paradigm of primary care research through research that rapidly develops and implements evidence while building LHS capacity in safety net primary care settings.

Role: FQHC-based project collaborator (20%-40% FTE)

Kaiser Permanente Washington  
No Grant # (Westbrook)

4/1/24-12/30/2025

**Learning Health System Program: Rapid evidence scan program**

Conduct rapid evidence scans to support KPWA programming and decision-making.

Role: Evidence scan lead (5% FTE)

National Heart Lung and Blood Institute  
5R01 HL121067-07 (Mangione-Smith)

9/30/2021-6/30/2026

\$593,846 (total direct)

**Pediatric Respiratory Illness Measurement System (PRIMES) Implementation in Community Hospital Settings**

To implement the PRIMES-SV tool in six geographically diverse community hospitals to a) examine the degree of variation in performance across the hospitals and b) identify implementation barriers to high performance using the Consolidated Framework for Implementation Research.

Role: QI Coach and Collaborative Scientist (35% FTE)

Agency for Healthcare Research and Quality  
R01 HS027790-01 (Hsu)

3/11/2024-3/31/2027

\$400,000

**Patient Perspectives on Prescription Opioid Discontinuation: Understanding and Promoting Safe Transitions (Phoenix)**

1) To assess patient and provider experiences and needs when providers initiate discontinuation of long-term opioid therapy; 2) To develop a patient decision aid to support patients when discontinuing long-term opioid therapy; 3) To pilot test the decision aid with patients.  
Role: Qualitative Analyst and Collaborative Scientist (20% FTE)

Emotional Well-Being and Economic Burden Research Network 2023-2025

**Legacy Goals Secondary Data Analysis**

A secondary data analysis of 3 previous qualitative studies to understand: 1: How do people facing mortality/living with cancer experience existential distress? and 2: What role does pursuing one's legacy goals plays in mitigating existential distress and supporting spiritual well-being?

Role: Qualitative researcher (10% FTE)

**Completed Projects**

Agency for Healthcare Research and Quality 9/30/24-6/31/2025 (early end)  
R01HS029868 \$586,904 (total direct)

**Whole Health Navigator**

Create, validate, and implement a Care Gap Prediction Model (Aim 1), define requirements for the Whole Person Navigator role to address combined social and medical needs of patients with multiple chronic conditions (Aim 2), and test this tailored care strategy in a patient-level randomized clinical trial in two care systems (KP Northern California and KP Washington, Aim 3).

Role: Qualitative research and workflow design (16% FTE)

California Health Care Foundation 11/1/2023-8/31/2025  
RFI 9B287 \$425,000

**Optimizing the Primary Care Team Workforce**

To build on and evolve what is known about best practices in primary care team formation and functionality; construct a primary care team configuration model appropriate to implement in diverse health care settings in California; and develop and vet a set of recommendations to enhance the availability, capacity, and distribution of the primary care workforce relative to this model.

Role: Collaborative Scientist (20% FTE)

National Cancer Institute 9/1/2020-5/31/2025  
5R01CA253028-03 (Kroenke) \$538,338

**Social Support in Cancer/EHR Support**

To develop an electronic health record-based tool to identify newly diagnosed breast cancer patients at risk of low social support.

Role: Site PI (15% FTE)

Kaiser Permanente Washington 4/1/24-12/31/2024  
No Grant # (Lozano) \$275,000 (total direct)

**Learning Health System Program: Self-collect HPV evaluation**

Conduct a mixed methods formative program evaluation of the self-collect HPV program to improve ongoing implementation efforts at KPWA and to contribute to the evidence.

Role: Project lead (30% FTE)

National Institute on Drug Abuse 4/1/2019-2/29/2024  
R01 DA047954 (Glass) \$663,241  
**Digital Treatments for Substance Use Disorder (DIGITS) in Primary Care: A Hybrid Type-III Implementation Trial**  
To evaluate strategies for increasing the adoption and reach of digital health tools for substance use disorders in primary care.  
Role: Practice Facilitator and Collaborative Scientist (30% FTE)

Kaiser Permanente Washington 2019-12/30/2023  
No Grant # (Lozano) \$5,301,690 (total direct)  
**Learning Health System Program: Integrated Pain Management**  
To improve care for patients with pain, and to support providers in caring for patients on chronic opioid therapy.  
Role: Practice Facilitator and Collaborative Scientist (30% FTE)

National Institute of Health 9/23/2019-12/30/2023  
1R01MD013874 (Coleman) \$687,277  
**Bariatric Experience Long Term (BELONG II)**  
Gain a deeper understanding of weight loss and regain for different races/ethnicities 5 years after surgery using qualitative methods.  
Role: Qualitative Researcher (20% FTE)

National Institute on Alcohol Abuse and Alcoholism 8/1/2017-9/30/2022  
K01AA023859 (Glass) \$889,465 (total direct)  
**mHealth AUD**  
Decreasing the engagement gap for addiction treatment in primary care.  
Role: Qualitative Researcher and Manuscript Lead (15% FTE)

National Institute on Aging 9/15/2017-11/30/2021  
R01 AG057508 (\*Yaffe, Larson) \$1,063,066 (total direct)  
**Systematic Multi-Domain Alzheimer's Risk Reduction Trial (SMARRT)**  
Trail of multiple behavior changes (e.g., physical activity, sleep, depression) intervention to prevent Alzheimer's Disease and Related Dementias.  
Role: Neuropsychic Assessor (30% FTE)

Kaiser Permanente Washington Community Benefit 8/1/2019-3/31/2021  
No Grant # (Coleman) \$134,763 (direct)  
**Building the Capacity to Address Social Needs in Washington**  
To support the Washington Association of Community Health to design, implement, and evaluate a social needs screening collaborative for federally qualified health centers in Washington.  
Role: Implementation and Evaluation Associate (30% FTE)

Robert Wood Johnson Foundation 9/1/2018-7/31/2021  
75607 (Parchman) \$250,000 (total direct)  
**Safety Net Value Champions Fellowship Program**  
This is a 9-month fellowship training program for a cohort of 8 clinical champions from safety net settings to develop competencies needed to engage providers in addressing overuse. The

curriculum will be based on the Taking Action on Overuse learning and experience and taught by nationally recognized faculty.  
Robert Wood Johnson Foundation  
Role: Implementation and Evaluation Associate (30% FTE)

Kaiser Permanente Washington 2020-2021  
No Grant # (Lewis, Hsu)  
**Learning Health System Program: CRS Evaluation**  
Role: Practice Facilitator and Qualitative Researcher (50% FTE)

R01HL132880 (Rosenberg) \$481,882 (direct)  
**Healthy Aging Resources to Thrive (HART)**  
Randomized controlled trial to reduce sitting time and improve cardiometabolic health in older adults with obesity  
Role: Health Coach (35% FTE)

KPWHRI Development Fund 2/17/2019-12/15/2019  
No Grant # (Figueroa Gray) \$59,957 (total direct)  
**Making Medical Decisions with BRCA I/II**  
Qualitative social media research to understand decision-making as a result of genetic testing.  
Role: Qualitative Researcher (20% FTE)

Industry Vaccine Study  
No Grant # (Jackson L)  
**NOR-204**  
Clinical trial of a norovirus vaccine.  
Role: Research Specialist (25% FTE)

National Institute of Allergy and Infectious Diseases 7/28/17-12/31/2020  
HHSN27200009-FY.2017.B8C12.0080 (Jackson L) \$2,680,772 (total direct)  
**Vaccine and Treatment Evaluation Units (VTEUs) Protocols 17-0075, 17-0076, 17-0090**  
To design and conduct three Phase II studies of H7N9 Inactivated Influenza Vaccine.  
Role: Research Specialist (60% FTE)

National Institute of Allergy and Infectious Diseases 7/12/17-5/31/2022  
HHSN27200005-14-0088.B1C1D1.0030 (Jackson L) \$2,467,100 (total direct)  
**Vaccine and Treatment Evaluation Units (VTEUs) Protocol 14-0088**  
To design and conduct the protocol titled "A Phase 1, Two Arm, Open Label Trial to Evaluate the Safety, Immunogenicity and Preliminary Efficacy of Genetically-attenuated p52-/p36-/sap1-Plasmodium falciparum Parasites (GAP3KO) administered via the Bite of Infected Anopheles stephensi Mosquitoes to Malaria-Naïve Adults Living in the United States".  
Role: Research Specialist (50% FTE)

National Science Foundation 11/25/2017-11/24/2018  
(Figueroa Gray) \$66,047 (total direct)  
**Changing Narratives in Early Phase Immunotherapy Trails**

This exploratory qualitative study situates contemporary problems in cancer research in the both the broader social history of cancer research and in decision-making in medicine by examining patient and provider narratives of Phase 1 immunotherapy trial participation.

Role: Qualitative Researcher (30% FTE)

Group Health Research Institute Development Fund

2017-1/1/2018

No Grant # (Figueroa Gray)

**Clare Fertility**

Role: Qualitative Researcher (70% FTE)

National Institute of Allergy and Infectious Diseases

9/17/2017-12/31/2020

HHSN27200007 (Jackson L)

\$1,248,287 (total direct)

**Vaccine and Treatment Evaluation Units (VTEUs) Protocol 11-0042**

To design and conduct the protocol titled “A Phase 1 Dose Escalation Trial to Assess the Safety and Efficacy of Infectious (Replication-intact), Cryopreserved Plasmodium falciparum Sporozoites (PfSPZ Challenge) administered by Direct Venous Inoculation under Chloroquine Cover (PfSPZ-CVac) on Varying Schedules in Healthy Malaria-Naïve Adults in the United States”.

Role: Research Specialist (40% FTE)

VTEU

2015-2017

RNG002744 (Jackson L)

**RSV-E-201, RSV-E-202, RSV-E-301**

To design and conduct a clinical trail of a respiratory syncytial virus vaccine.

Role: Research Specialist (70% FTE)
